Helping to control your dressings budget

**Cutimed® Sorbact®**

**Safe¹. Innovative. No contra-indications²**

The only range of dressings coated with DACC that can reduce the microbial load. In a moist environment, bacteria and fungi will bind to the dressing helping to kick start the healing process.³,⁴

**Strengthen your formulary in line with the growing number of Cutimed Sorbact users across the UK.**

**Cutimed® Siltec**

**Foam dressings with a difference**

- Non-adhesive silicone wound contact layer
  - Pain free⁵ and atraumatic⁶,⁷ dressing changes
- Super-absorbers above the foam core
  - Excellent fluid absorption and retention, even under compression⁷,⁸
- Highly breathable PU top film
  - Dynamic MVTR⁸ which adapts with wound conditions

**Indications:**

- Pressure, diabetic foot and leg ulcers
- Traumatic and surgical wounds
- Wounds after excision of fistulae and abscesses

**Benefits to Clinicians:**

- Effective infection and exudate management provided by Cutimed Sorbact and Cutimed Siltec ranges can help to reduce cost.⁵,⁹

- Both ranges are available in a wide range of sizes, making them suitable for all wounds.
